

IN THE CLAIMS

Please cancel claim 3.

Please amend claims 1, 4-6 and 8-14 as follows:

B1
--1. (Amended) A transmitter system for transmitting program related information relating to program information, comprising:
generating means for generating said program related information and display related information relating to displaying said program related information; and transmitting means for transmitting said program related information and said display related information separately;

a1
said generating means composing said program related information and said display related information of a first part including identification information for identifying said program related information and said display related information and a second part composed of actual data.

2. The transmitter system according to Claim 1, wherein said generating means composes said second part of a third part composed of identification information for identifying said second part and a fourth part composed of the actual data.

B2
4. (Amended) A receiver system for receiving program related information relating to program information, comprising:
receiving means for separately receiving said program related information and display related information relating to displaying said program related information; and

BB Cont
generating means for generating fourth information for displaying said program related information based on said program related information and said display related information.

5. (Amended) The receiver system according to Claim 4, further comprising:

first separating means for separating said program related information and said display related information into a first part containing identification information for identifying said program related information and said display related information and a second part composed of actual data;

a1 Cont.
second separating means for separating said second part into a third part comprising identification information for identifying said second part and a fourth part composed of actual data; and

retrieving means for retrieving data of said second part and said fourth part of said program related information and said display related information based on said identification information.

6. (Amended) The receiver system according to Claim 5, further comprising updating means for updating said second part and said fourth part of said program related information and said display related information based on said identification information.

7. The receiver system according to Claim 5, further comprising display control means for displaying a first window on a predetermined screen and displaying data of said fourth part within said first window.

8. (Amended) A transmitting method for transmitting program related information relating to program information, comprising the steps of:

generating said program related information and display related information relating to displaying said program related information; and transmitting said program related information and said display related information separately;

said generating step composing said program related information and said display related information of a first part including identification information for identifying said program related information and said display related information and a second part composed of actual data.

9. (Amended) A receiving method for receiving program related information relating to program information, comprising the steps of:

receiving separately said program related information and display related information relating to displaying said program related information; and

generating fourth information for displaying said program related information based on said program related information and said display related information.

10. (Amended) A transmission medium for transmitting a computer program for transmitting program related information relating to program information, said computer program comprising the steps of:

generating said program related information and display related information relating to displaying said program related information; and

transmitting said program related information and said display related information separately;

said generating step composing said program related information and said display related information of a first part including identification information for identifying said program related information and said display related information and a second part composed of actual data.

11. (Amended) A transmission medium for transmitting a computer program for receiving program related information relating to program information, said computer program comprising the steps of:

receiving separately said program related information and display related information relating to displaying said program related information; and

generating fourth information for displaying said program related information based on said program related information and said display related information.

12. (Amended) The receiver system according to Claim 4, further comprising second generating means for generating fifth information from said program related information and said display related information.

13. (Amended) The receiving method according to Claim 9, further comprising a second generating step for generating fifth information from said program related information and said display related information.

14. (Amended) The transmitting medium according to Claim 11, further comprising a second generating step for generating fifth information from said program related information and said display related information.

15. The receiver system according to Claim 5, wherein said first window is composed of one or more boxes and said box is composed of one or more cells.--

REMARKS

This Amendment is responsive to the Office Action dated October 25, 2000. Claims 1-15 were pending in the application. In the Office Action, claims 1-15 were rejected. In this Amendment, claim 3 has been canceled, and claims 1, 4-6 and 8-14 have been amended. Claims 1, 2 and 4-15 thus remain for consideration.

Applicants submit that the application is now in condition for allowance and request reconsideration and withdrawal of the rejections in light of the following remarks.
